Coleman Lamps

No. 128C "PRINCESS"

Gasoline Lamp

Match Generating

No. 128C

The new Coleman Lamp—small in size, big in brilliance—especially adapted for every lighting need about the home. Takes 13 inch Parchment shade and inner Mica, which protects mantles.

Fount has attractive copper-tone finish. Fuel capacity of fount enough for 12 to 14 hours' service. Lamp packed one in a carton (less Parchment shade and inner Mica), with two mantles, hanger rod and pump. Approximate shipping weight, 5 lbs.

Retail Price (Less Shade and Mica Protector).....**\$5.95**

No. 169K "ROYAL"

Coal Oil Lamp

No. 169K

Cup pre-heating. The new Coleman Kerosene Mantle Lamp. Standard size. High candle-power. Burns either coal oil or gasoline. Fount finished in silvertone. Takes 14 inch Parchment shade and 8M Mica. Fuel capacity for 15 to 18 hours' burning. Packed one to a carton (less shade and Mica), with two mantles, hanger rod and pump. Shipping weight, 7 lbs.

Retail Price (Less Shade and Mica Protector).....**\$7.65**

No. 168K "REGAL"

Coal Oil Lamp

No. 168K

Cup pre-heating. The new Coleman Kerosene Mantle Lamp. Junior size. Burns either coal oil or gasoline. Fount finished in silvertone. Takes 13 inch Parchment shade and 8M Mica. Fuel capacity for 12 to 14 hours' burning. Packed one to a carton (less shade and Mica), with two mantles, hanger rod and pump. Shipping weight, 5 lbs.

Retail Price (Less Shade and Mica Protector).....**\$5.95**

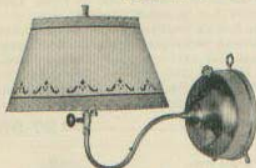

PAGE TWO

Coleman Lamps

No. 102K

"Bracket" Lamp

(Coal Oil or Gasoline)

No. 102K

A brand new addition to the Coleman line. Uses either gasoline or coal oil as fuel. Designed as a wall lamp but may also be used as a table lamp.

Provides high candlepower light over a wide area without any shadow. Takes 13 inch Parchment shade and Mica protector.

Specially suited for use in rooms with low ceilings. Does not take up table space in busy home kitchens. Ideal for churches, stores and community halls. Finished in polished nickel.

Packed one to a carton (less shade and Mica), with 2 mantles and separate pump. Shipping weight, 7 lbs. Retail Price (Less Shade and Mica Protector).....**\$9.75**

No. 103K

"Chandelier" Lamp

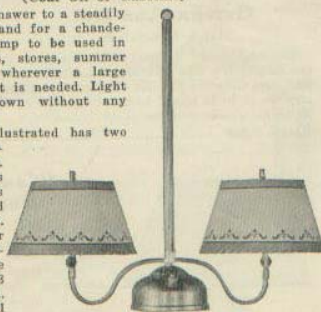

(Coal Oil or Gasoline)

Here is the answer to a steadily increasing demand for a chandelier type of lamp to be used in churches, halls, stores, summer cottages, and wherever a large volume of light is needed. Light is reflected down without any shadow.

The lamp illustrated has two complete two-mantle burners. Provides as much light as two standard Coleman lamps. Each burner operates independently. The fount holds 3 pints of fuel. Either coal oil or gasoline may be used. Finished in polished nickel.

The chandelier lamp is designed for suspending from the ceiling, but may also be used as a table lamp. Takes two 13 inch Parchment shades and Mica protectors. Packed one to a carton (less shades and Micas), with 4 mantles and separate pump. Shipping weight, 10 lbs.

Retail Price (Less Shades and Mica Protectors) **\$11.95**

No. 103K

PAGE THREE

Retail Price\$2.50

No. 91

PAGE ELEVEN

HOW TO KNOW GOOD GASOLINE

Coleman Gasoline Pressure Appliances are built to operate properly on any good, fresh, clean, unleaded gasoline. "STRAIGHT-RUN" gasoline is the best appliance fuel. Many of the lower priced motor gasolines are excellent fuels for gasoline pressure stoves, ranges, heaters, camp stoves, lamps, lanterns, irons, etc.

DO NOT USE ANY GASOLINE CONTAINING LUBRICATING OILS, GRAPHITE OR ETHYL FLUID. Such substances rapidly clog appliance generators. Many oil companies now market "SPECIAL GASOLINE PRESSURE APPLIANCE FUELS," which are shipped from their refineries in clean new steel barrels. These fuels, which are plainly identified on our approved list, mentioned below, can be depended upon to give extra long, trouble-free service.

Ask your oil company representative if one or more of his gasolines are suitable for this class of service. If he does not know, ask him to find out and arrange to keep on hand a supply of fuel which is suitable for your Gasoline Pressure Appliance. If you experience any difficulty with your Gasoline Pressure Appliance fuels, write for latest list of gasolines and "Special Appliance Fuels" which are approved.
