

NAME AND TYPE LAMP, Gasoline, Quick-Lite Series

MODEL NUMBER B327

DESCRIPTION:

A limited number of B327 lamps were made sometime during the 1920s. No production records are available.

The Model B327 combined the standard Quick-Lite (L327) two-mantle burner, mica chimney and ventilator top with the fount and generator of the Model BQ bracket lamp, manufactured between 1916 and 1930.

B-327

The B-327 is the ideal wall light for outdoor use. The non-breakable mica chimney protects against wind, insects and rain. Does not swing back and forth or flicker.

The B327 was intended for outdoor use; however it was easily moved from place to place.
