# Coleman KER-O-LITE Lamp

## KEROSENE WICK TYPE

(Non-Pressure)

Model No. 160

(Less Shade)

Fuel is any good  
commercial grade  
of fresh  
clean kerosene

A New High Quality Kerosene Mantle Lamp, made by Coleman, the world's leading manufacturer of portable home lamps.

**New Type Mantle**—Woven from a special prepared high grade mantle thread. The only mantle made with the new double-lock, triangular braced weave which gives strength, sturdiness and long life. Correct in size, shape and weave to produce a fine soft white eye-saving light.

**"Tight-Lock" Mantle Holder**—Can't fall off. Made of heat-resisting stainless steel, highly resistant to rust and corrosion.

**Strong, Sturdy Burner**—Made of heavy gauge brass, strongly braced to last indefinitely. Has bright satin nickel finish.

**"Snap-on" Chimney**—Made of crystal-clear heat-resisting glass; 14 inches high. It is correct in size, shape and height to develop proper draft for maximum candle power. Base is grooved so that it snaps into holder firmly; cannot topple off.

**New Long-Life Wick**—The material used is especially selected and carefully inspected for its absorption power to carry a sufficient supply of fuel to the burner. Special chemical treatment insures long life. Easy to replace.

**One-Piece Base**—Crystal glass base moulded into one solid, complete piece; not jointed. Its attractive ivory finish is fused onto the glass. Finish is sufficiently transparent to easily determine the amount of fuel in bowl. Fuel capacity one quart; one filling gives from 9 to 12 hours fine lighting service.

**Decorated Parchment Shade**—The latest type, extra-heavy, non-oiled, attractively colored. Assorted designs. Size: 14 inches in diameter, 9 inches high.

**No. 160 Ker-O-Lite**—(less shade and tripod), over-all height 25 inches, is packed one to a shipping carton. Shipping weight, 7 pounds.

Retail Price, each.....\$6.95

Retail Price, Complete with Shade
